TROON COMMUNITY TEAMS

The administration of this community depends on the willingness of our residents to volunteer for various activities. We have no paid employees. In order to cut down on expenses we are depending on folks like you to step up and help us with important community needs. The purpose of the teams is to investigate problems and issues, present proposals to the Board for consideration, and in some cases be involved in the actual work to complete an action. For example, the Landscape team actually helps with weeding, planting, etc.

We would love to include you as one of our team volunteers. Please review the opportunities below and contact our property management company, one of your current board members, or someone on a specific team to sign up!
